In your view, what are the biggest challenges facing businesses in our state?

How does our economy reflect or embody our values as Vermonters?

Not much

Support for employees

A place where people are willing to take risks to find a place in the sun.

Caring for one another more than money

Change is slow and hard. Quality is high.

Does not reflect LONG TERM goals

No willingness to change = No Change

sustainability, new markets, innovation

small local businesses suit our culture

How does our economy reflect or embody our values as Vermonters?

democide, conscription, slavery, fascism, imperialism

Diverse

quality work

tiny and entrepreneurial

community and local support

The economy is overwhelmingly run by white people, so it reflects the ways that systemic racism can really perpetuate a culture that is unintentionally but pervasively exclusionary

green, ag-focused, respectful, over-interest in tourism

investing in our kids in hands on training

Quality vs Quantity

How does our economy reflect or embody our values as Vermonters?

there is a perception of an ideal for Vermont's economy that most agree with, but people do not agree with the the implementation of these ideals

We need to support children and families and we seem very focused on elders

Entrepreneurs are big % of Vermont's economy
